Modular Furniture Specialists is well known for its quality of service here in the Birmingham area and throughout the southeast with satellite offices in Memphis, TN and Jackson, MS.

Here at MFS we pride ourselves on being the best modular office systems installers, offering maintenance and service on time and on schedule. We have spent almost two decades building the reputation that we have established.

Our goal is to expand the scope of that well built reputation into other markets in the United States, increasing our customer base substantially. And we feel that securing federal contracts would be one of the best ways we could go about doing that.

We would like to do business with you. And, we would like to give you the opportunity to do business with us; a company that delivers an excellent completed product.

All of the requirements for the Central Contractor Registration have been fulfilled and we are prepared to do business with the government and compete for government contracts.

When the opportunity presents itself we are prepared to place our bid to secure a contract for furniture installations in your facilities.
